Bengaluru, Karnataka | +91 720483958 | vyshnaviiyengar2002@gmail.com

Aspiring computer science student seeking opportunities to apply and expand my knowledge in software development and computer programming. Eager to contribute my skills, passion and dedication to dynamic team and make a positive impact in the tech industry.

PROJECTS

Online Library Management System: Developed online library management system database, integrating functionalities like member and book management, transactions (borrowing, returning), fines, and reporting.

Handwriting Recognition System Using Deep Learning : Built a deep learning model (CNN) to recognize hand-drawn digits and characters from user-created Paint images. Achieved 99% accuracy, showcasing experience in data handling and model training.

Placement Management System Using Spring Boot: Developed web-based placement module using Spring Boot for managing student-company interactions, applications, and placements.

EDUCATION

August 2024

Bachelor of Engineering | Computer Science | Dr. Ambedkar Institute Of Technology

CGPA:9.16

March 2020

HSC | Narayana PU College

Percentage:92.5

March 2018

SSC | Narayana E-Techno School

Percentage:94.4

SKILLS

Programming language: Python, C, Java

Web development: HTML, CSS

Data Base Management: SQL

Tools: Visual Studio Code, VMWare Workstation, Jupyter NoteBook, Eclipse IDE, Salesforce(Cloud),
Eclipse IDE(Android Developers Tools)
